PART 802—SUGAR DETERMINATIONS

PROPORTIONATE SHARES FOR FARMS IN DOMESTIC BEET, MAINLAND CANE, HAWAII, AND VIRGIN ISLANDS SUGAR AREAS FOR 1947 CROP AND IN PUERTO RICO FOR 1974-48 CROP

Pursuant to the provisions of section 302 of the Sugar Act of 1937, as amended, the following determination is hereby issued:

§ 802.17j *Proportionate shares for farms in the domestic beet sugar area for the 1947 crop.* The proportionate share for the 1947 crop for each farm in the domestic beet sugar area shall be the number of acres of sugar beets planted thereon for the production of sugar beets to be marketed (or processed by the producer) for the extraction of sugar or liquid sugar during the 1947 crop season.

§ 802.26i *Proportionate shares for the Mainland cane sugar area for the 1947 crop—(a) Farm proportionate share.* The proportionate share for the 1947 crop for each sugarcane farm in the Mainland cane sugar area shall be the number of acres planted thereon for the production of sugarcane to be marketed (or processed by the producer) for the extraction of sugar or liquid sugar during the 1947 crop season.

(b) *Tenant and sharecropper protection.* Notwithstanding the establishment of a proportionate share for any farm under paragraph (a) of this section, eligibility for payment of any producer on the farm shall be subject to the following conditions:

(1) That such producer shall not have entered into any leasing or cropping agreement for the purpose of diverting to himself or other producers any payment to which tenants or sharecroppers would be entitled if their 1946 leasing or cropping agreements were in effect.

(2) That such producer shall not have interfered with any contracts entered into by tenants or sharecroppers for the sale of their sugarcane or their share of the sugarcane produced on the farm.

§ 802.36i *Proportionate shares for sugarcane farms in the Territory of*

Hawaii for the 1947 crop—(a) Farm proportionate share. The proportionate share for each farm in the Territory of Hawaii for the 1947 crop shall be the amount of sugar, raw value, commercially recoverable from sugarcane grown on such farm and marketed (or processed by the producer) for the extraction of sugar during the calendar year 1947.

(b) *Adherent planter protection.* Unless considered justified and approved by the Director of the Sugar Branch, Production and Marketing Administration, the plantation-producer on the farm shall be deemed ineligible for payment if, in relation to the 1946 crop operations on such farm, (1) there has been any change in the planter-plantation sugarcane and sugar production ratio, (2) there has been any reduction in the number of planters, or (3) there has been any change in any leasing or cropping agreement which would have the effect of diverting to the plantation-producer any payment to which the planter under such agreement would otherwise be entitled.

§ 802.46h *Proportionate shares for sugarcane farms in Puerto Rico for the 1947-48 crop—(a) Farm proportionate share.* The proportionate share for each farm in Puerto Rico for the 1947-48 crop shall be the amount of sugar, raw value, commercially recoverable from sugarcane grown on such farm and marketed (or processed by the producer) for the extraction of sugar during the 1947-48 crop season.

(b) *Tenant and sharecropper protection.* The provisions of this section are subject to the following conditions:

(1) That the number of share-tenants or share-croppers on any sugarcane farm shall not be reduced below the number that was on such farm during the 1946-47 crop year, unless such reduction is approved by the Officer or Acting Officer in Charge of the Production and Marketing Administration Office in Puerto Rico; and

(2) That the terms and conditions of the leasing or cropping agreement shall be not less favorable than those contained in the agreement for the 1946-47 crop year.

[Lemon Reg. 217]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.324 *Lemon Regulation 217*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess., 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which the regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., p. s. t., April 13, 1947, and ending at 12:01 a. m., p. s. t., April 20, 1947, is hereby fixed at 275 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule

which is attached hereto and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said marketing agreement and order. (43 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Administration or the Office of the Housing Expediter. The officials of the company were aware of the restrictions provided in Veterans' Housing Program Order 1. In view of the foregoing, it is hereby ordered, That:

§ 807.1 *Suspension Order No. S-1*

(a) Neither Burche Company, a corporation, Lucy Garno, and E. F. Garno, their successors or assigns, nor any other person, shall do any further construction on the building located at 201-209 North Second Street, Harrisburg, Pa., including putting up, completing or altering the structure, unless hereafter authorized in writing by the Office of the Housing Expediter.

PART 807—SUSPENSION ORDERS

[Suspension Order S-2]

E. L. LIVERS

E. L. Livers, whose address is 2419 West 80th Street, Seattle, Washington, is a contractor and builder, and as such was granted authorization and HH preference ratings by the Federal Housing Administration to construct twenty houses for sale or rent to veterans under the Veterans' Housing Program. Two of the houses so authorized were to be four-room brick veneer houses with full basements, but instead, as actually constructed, one was finished with a shake siding and the other was a conversion of an old office building without basement and with cedar siding. On June 17, 1946, E. L. Livers applied an HH rating to an order for 12,666 feet B. M. of ship-lap which material was used in houses for which no preference rating had been assigned. Subsequent to March 26, 1946,

RULES AND REGULATIONS

E. L. Livers began construction of two houses without authorization of the Civilian Production Administration, Federal Housing Administration or the Office of the Housing Expediter, one at 1938 West 96th Street, Seattle, Washington, and the other at 10201 Val May Avenue, Seattle, Washington, the estimated cost of each of which was in excess of \$400.00. The construction of the house at 1938 West 96th Street was subsequently authorized by the Federal Housing Administration. The action of E. L. Livers as aforesaid constituted a willful violation of Priorities Regulation 33, Priorities Regulation 3 and Veterans' Housing Program Order 1. These violations have diverted critical material to uses not authorized by the Office of Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.2 *Suspension Order No. S-2.* (a) Neither E. L. Livers, his successors or assigns, nor any other person shall do any further construction on the premises located at 10201 Val May Avenue, Seattle, Washington, including completing, putting up or altering of any structure located thereon, unless hereafter specifically authorized by the Office of the Housing Expediter or the Federal Housing Administration.

(b) For a period of four months from the effective date of this order, no authorization shall be granted E. L. Livers by the Office of the Housing Expediter for any construction for which authorization is required.

(c) Paragraph (b) of this order shall not apply to any construction authorized, began and continued prior to the effective date of this order.

(d) E. L. Livers shall refer to this order in any application or appeal which he may file with the Office of the Housing Expediter for authorization to carry on construction.

(e) Nothing contained in this order shall be deemed to relieve E. L. Livers, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

stop telegram, continued construction. This willful violation of Veterans' Housing Program Order 1 has diverted critical materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.4 *Suspension Order No. S-4.* (a) Neither John Cavaglieri and Adolph Devencenzi, as owners, their successors and assigns, nor any other person shall do any further construction on Units "A" and "B" on the 9½ acres of land at Calistoga, California, including completing, putting up or altering of any structure located thereon, unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

PART 3293—CHEMICALS

[Allocation Order M-393]

STREPTOMYCIN

The fulfillment of the requirements for the defense of the United States has created a shortage in the supply of streptomycin, for defense, for private account, and for export, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.113c *Allocation Order M-393—*
(a) *Definitions.* For the purposes of this order:

(1) "Streptomycin" means a chemotherapeutic agent isolated from *actinomyces griseus* and variants. The term includes streptomycin in any medicinal tablet, ampoule or other dosage form, as well as crude streptomycin.

(2) "Primary supplier" means any person who produces or imports streptomycin. However, the term shall not include any retail pharmacist, hospital or physician.

(3) "Primary distributor" means any person who buys streptomycin from a producer or importer for distribution with his (primary distributor's) name on the label. However, the term shall not include any retail pharmacist, hospital or physician.

(b) *General provisions.* (1) The initial allocation date is April 1, 1947. The allocation period is the calendar month.

(2) On and after the allocation date no primary supplier or primary distributor shall use or deliver streptomycin to any person except as specifically authorized in writing by the Civilian Production Administration upon application under this order.

(3) Allocations under Schedule 119 to Order M-300. Each primary supplier or primary distributor holding authorizations to use or deliver streptomycin under Schedule 119 to M-300, may use and deliver streptomycin to the extent permitted by such authorizations. All stocks of streptomycin not allocated under authorizations issued under Schedule 119 to Order M-300 are subject to allocation under this order.

(c) *Exemptions.* Application and specific authorization are not required for the following use or delivery of streptomycin:

(1) Use and delivery by any person who is not a primary supplier or primary distributor as defined in this schedule.

(2) Deliveries of samples to the Food and Drug Administration, Washington 25, D. C.

(3) Use by any primary supplier or primary distributor of samples of his own production or stock for making production control and standardization tests solely for potency, sterility, toxicity, pyrogens, moisture or stability.

(d) *Suppliers' applications on CPA-2947.* Each primary supplier or primary distributor seeking authorization to use or deliver streptomycin shall file application on Form CPA-2947. Filing date is the 17th day of the month before the proposed delivery month. Send three certified copies to the Civilian Production Administration, Washington 25, D. C., Ref. M-393. The unit of measure is grams of streptomycin activity in terms of streptomycin base.

In section I, first list Army and Navy orders, specifying in Column 1 Army or Navy, in Column 1a the contract or requisition number, in Column 4 the quantity ordered and in Column 5 the proposed delivery. Second, list orders placed by the Veterans' Administration, and U. S. Public Health Service, specifying in Column 1 Veterans' Administration, and U. S. Public Health Service, leaving Column 1a blank, in Column 4 the quantity ordered and in Column 5 the proposed delivery. Quantities desired for other purposes may be stated. In addition the Civilian Production Administration may allocate quantities for delivery to specific customers for civilian purposes. In the case of proposed delivery to a primary distributor the applicant shall list specifically the name of the primary distributor and the quantity proposed to be delivered to him.

In section II, fill in as indicated leaving Columns 8, 9 and 10 blank and reporting only unallocated stocks in Column 13. An applicant who is both a primary supplier and a primary distributor shall report the required information in section II relating to his own production separately from that relating to his purchased material.

material.

(e) Primary suppliers must submit samples of each batch of streptomycin to the Food and Drug Administration, Washington 25, D. C. for tests and have the Food and Drug Administration approval of each batch before making shipment against allocations. Primary suppliers must conform to any Civilian Production Administration instructions regarding preparation and packaging of streptomycin when released.

(f) *Reports.* Reports of production, stocks and shipments shall be filed within 5 days after the close of each calendar month by every primary supplier and primary distributor of streptomycin.

These reports shall be filed on Form CPA-2947 in the following manner:

Specify in the blocks provided the name and address of the company reporting, name of materials, month, unit of measure, grams of streptomycin activity in terms of streptomycin base.

In section I report deliveries made against individual allocations. In Column 4 change heading to read "quantity shipped" showing the amount shipped. Leave Columns 1a, 5, 5a, 6 and 7 blank.

In section II leave Column 8 blank and list in Column 9 production during the month for which the report is filed and in Column 10 unallocated stocks as of the first day of the current month. Leave other columns blank.

A primary supplier who is also a primary distributor shall report the required information in section II relating to his own production separately from that relating to his purchased material.

(g) *Budget Bureau approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(h) *Territorial limitations.* This order applies only to acts occurring within the continental United States (the 48 states and the District of Columbia), and deliveries across the border of the continental United States shall constitute imports and exports for the purpose of this order.

(i) *Imports.* (1) Imports of streptomycin may be accepted by the original consignee without application or authorization under this order. The consignee as an importer shall be subject to the requirements regarding primary suppliers and primary distributors.

(j) *Exports.* (1) No primary supplier or primary distributor shall accept or deliver for export streptomycin after the initial allocation date except as specifically authorized in writing by the Civilian Production Administration upon application under this order. A primary supplier or a primary distributor who is also an exporter shall treat the export part of his operations as a separate entity for the purpose of this order. An exporter applying on Form CPA-2947 for an allocation, and to the Office of International Trade, Department of Commerce, for an export license for streptomycin, shall file both sets of applications with the Office of International Trade.

Before filling a purchase order for streptomycin, however, the exporter must first have obtained an approved export license from the Office of International Trade.

(2) Authorized deliveries for export must be made within the authorized periods unless the exporter notifies the primary supplier or primary distributor and the Civilian Production Administration in writing that delivery must be postponed to the later specified period, in which case the limitation on duration of authorization under paragraph (k) is automatically waived subject to any special directions of the Civilian Production Administration. After an exporter has accepted an authorized delivery for export, he may export the material at any time to the designation for which the allocation was made without further allocation or authorization under this order.

(k) *Duration of authorization for delivery.* If it is not practical for a primary supplier or a primary distributor to make all deliveries in the allocation period for which authorized, he may complete them as early as practicable thereafter. However, authorization to deliver shall not be made after the end of the month following the allocation period for which delivery was authorized and shall terminate if the purchaser fails to place his order before the end of the allocation period, or if the purchaser requires postponement of delivery beyond 10 days after the allocation period or an authorization to deliver is received for the specified allocation period. Advance delivery may be made if it does not delay previously authorized deliveries.

(l) *Duration of authorization for use.* There is no limitation on duration of authorization for use in streptomycin.

(m) *Violations.* Any person who willfully violates any provision of this order, or in connection with this order willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries or from processing or using streptomycin.

(n) *Communications to the Civilian Production Administration.* Communications concerning this order shall be addressed to Civilian Production Administration, Chemicals Division, Washington 25, D. C., Ref. M-393.

(o) *Appeals.* Any appeal from the provisions of this order shall be made by mailing a letter in triplicate to the Civilian Production Administration, Chemicals Division, Washington 25, D. C., Ref. M-393, stating the particular provisions appealed from and stating fully the grounds for the appeal.

Issued this 11th day of April 1947.

PART 4003—SUBSIDIES; SUPPORT PRICES

LIVESTOCK SLAUGHTER PAYMENTS

CROSS REFERENCE: For amendment of regulations covering the livestock slaughter program, affecting § 4003.51, see Part 4004 of this chapter, *infra*.

[Directive 41, Amdt. 11]

PART 4004—PRICE STABILIZATION, MAXIMUM PRICES

LIVESTOCK SLAUGHTER PAYMENTS

Section 4004.1 *Livestock slaughter payments* (Directive 41) is amended by the addition of the following paragraphs to section 7 (b) (1)

As used in this section 7 (b) (1) the phrase "its present procedure" was intended to and does refer to the procedure whereby subsidy funds are withheld from subsidy applicants involved in criminal proceedings. This procedure was and is as follows:

Withholding of subsidy funds from a subsidy applicant involved in criminal proceedings is initially recommended to the Reconstruction Finance Corporation by the Price Administrator only when all three of these factors are present: (1) the Price Administrator (or his duly authorized representative) has investigated the alleged wilful violation and referred the case to the United States Attorney for the institution of criminal proceedings; (2) the grand jury has returned an indictment or the United States Attorney has filed an information against the subsidy applicant for the alleged wilful violations of any meat or livestock regulation or order issued by the Price Administrator; and (3) a responsible member of the applicant's management was chargeable with knowledge of the facts alleged to constitute the wilful violation.

The amount of subsidy money withheld is that allocable to the selling establishments involved in the criminal proceedings, and, as to each selling establishment, to the accounting periods during which the violations are alleged. The recommendation of the Price Administrator as to such withholding is in the form of a letter to the Reconstruction Finance Corporation notifying that agency of the pending criminal proceedings and the selling establishments and periods involved.

After receiving the Price Administrator's recommendation, the Reconstruction Finance Corporation then notifies the applicant as to the specific amount of subsidy funds that are thus to be withheld or recaptured, in the event the subsidy applicant has received the funds.

The recommendations of the Price Administrator as to permanent withholding automatically follow the judicial determinations as to criminal responsibility and may, therefore, be made despite the fact that there was no initial recommendation for withholding based upon the institution of criminal proceedings, due to the absence of either or both of factors (1) and (3). If the criminal proceedings terminate with a conviction of the subsidy applicant, the subsidy payments allocable to the selling establishments for the periods involved in the conviction are then permanently withheld or recaptured. In the event the subsidy applicant is found upon trial to be not guilty of all violations charged in the indictment or information with respect to any particular accounting period or periods, or in the event all counts in the indictment or information relating to any particular accounting period or periods are dismissed or not proscribed by the United States Attorney, the Administrator certifies such facts to the Reconstruction Finance Corporation and thereupon the subsidy funds withheld or recaptured for such accounting period or periods are payable forthwith. However, the fact that all of the counts in the indictment or information relating to any particular accounting period or periods are dismissed or not proscribed by the United States Attorney, does not operate as a bar to an appropriate certification by the Price Administrator in accordance with section 7 (b) (2).

The Reconstruction Finance Corporation is directed to amend its *Livestock Slaughter Payments Regulation No. 3* to make it clear that in any instance in which a subsidy applicant may have had subsidy funds withheld after termination of the criminal proceedings contrary to the procedure for such withholding described in this amendment, the applicant may apply for and obtain release of such subsidy funds. The Price Administrator will review all recommendations for initial withholding, in cases in which critical proceedings are still pending, to assure that such recommendations are in accordance with the procedure for such withholding described in this amendment.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

[Instruction No. 2, Sec. 13, Pub. Law 589, 79th Cong.]

PART 5—ADJUDICATION; DEPENDENTS' CLAIMS SERVICE (APPENDIX)

PART 10—INSURANCE (APPENDIX)

ADJUDICATION OF CLAIMS FOR DEATH BENEFITS, NATIONAL SERVICE LIFE INSURANCE

1. *Section 13, Public Law 589, 79th Congress.* Under the provisions of the above citation of law:

(a) The designated beneficiary may assign all or any part of his interest, i. e., if he is beneficiary for \$5,000.00, he may assign the entire \$5,000.00, or only \$2,000.00, or \$3,000.00.

(b) The assignees under such assignments are restricted to the classes of relatives enumerated in the law, widow, widower, child, father, mother, grandfather, grandmother, brother or sister of the insured.

(c) The designated contingent beneficiary, if any, must join the principal beneficiary in the assignment.

(d) The assignment is valid only if delivered to the Veterans' Administration before any payments of the insurance shall have been made to the designated beneficiary.

(e) In cases in which an interest in an annuity is assigned, payment must be made to the assignee in equal monthly installments, in multiples of 12, as most nearly equals the number of installments certain under such an annuity or in 240 installments whichever is the lesser.

2. *Definitions*—(a) *Interest in an annuity.* "An interest in an annuity" is any interest in which the designated beneficiary would have been paid in equal monthly installments either for a fixed period or for life with a specified number of installments certain. It comprehends every mode of payment, except payment in one sum.

(b) *Number of installments certain.* The "number of installments certain under such an annuity" is the number of installments in which payment would have been made to the designated beneficiary (assignor)

3. *Application*—(a) *Insurance maturing prior to August 1, 1946.* Applying the above definitions, the rule contained in the last proviso of section 13, supra, as stated in paragraph 1 (e) above, and the provisions of § 10.3459 of this chapter, to insurance maturing prior to August 1, 1946, it follows that:

(1) If the designated beneficiary was under 30 on the date of the insured's death and the insured had not elected the Refund Life Income (i. e., had made no election or had elected 240 equal monthly installments) payment would be made to the assignee in 240 equal monthly installments.

(2) If in a case similar to (1) the insured had elected the Refund Life Income, the assignee would be paid in equal monthly installments (in multiples of 12) as would most nearly equal the number

of installments certain under the Refund Life Income which would have been paid to the beneficiary (assignor) e. g., if the beneficiary were 28, the number of installments certain would be 270, and the number of equal installments payable to the assignee would be 240.

(3) If the designated beneficiary was 30, or over on the date of the insured's death and the insured had not elected the Refund Life Income (i. e., had made no election or had elected equal monthly installments for life with 120 months certain) payment would be made to the assignee in 120 equal monthly installments since under the circumstances, the beneficiary (assignor) would have been paid in equal monthly installments for life with 120 months certain.

(4) If in a case similar to (3) the insured had elected the Refund Life Income, payment would be made to the assignee in equal monthly installments (in multiples of 12) as would most nearly equal the number of installments certain under the Refund Life Income which would have been paid to the beneficiary (assignor) e. g., if the beneficiary were 48, the number of installments certain would be 207, and the number of equal monthly installments payable to the assignee would be 204 (nearest multiple of 12 to 207).

(b) *Insurance maturing on or after August 1, 1946.* Applying the same definitions, rules, and provisions to insurance maturing on or after August 1, 1946, it follows that:

(1) If the insured had elected Option 1 (one sum) payment would be made to the assignee in one sum.

(2) If the insured had elected a specific number of installments under Option 2, the assignee would be paid in exactly the same number of installments. The assignee would not be permitted to elect a greater or a lesser number of installments.

(3) If the insured had made no election, the assignee would be paid only in 36 equal monthly installments.

(4) If the insured had elected Option 3 (equal monthly installments for life of beneficiary first receiving payment with 120 installments guaranteed) the assignee would be paid in 120 equal monthly installments.

(5) If the insured had elected Option 4, the assignee would be paid in equal monthly installments (in multiples of 12) as would most nearly equal the number of installments certain under the Refund Life Income which would have been paid to the beneficiary (assignor) e. g., if the beneficiary were 58, the number of installments certain would be 166, and the number of equal monthly installments payable to the assignee would be 168 (nearest multiple of 12 to 166).

(6) In all the examples cited in this paragraph where payment would be made to the assignee in installments and the assignee dies before being paid all of the installments, the commuted value of the remaining installments would be paid to the estate of the insured.

(7) In three instances (at ages 44, 59, and 62) the number of installments certain under the Refund Life Income will

be midway between two multiples of 12, both of which will be less than 240. Under these conditions in determining the number of equal monthly installments which most nearly equals the number of installments certain the lesser, not the greater, figure will be selected, i. e., at age 44, the number of installments certain under the Refund Life Income is 222, a figure 6, less than 228, and 6 more than 216. The assignee would, therefore, be paid in 216 equal monthly installments.

4. *Execution of assignment.* (a) The assignee, not the beneficiary (assignor), will execute the claim on VA Form 8-355, Claim for National Service Life Insurance, in every case in which there is to be an assignment. Any election made by the beneficiary (assignor) will be ignored and his claim will not be accepted in lieu of a claim by the assignee. The assignee must submit proof of relationship, unless such proof has been submitted previously for other purposes.

(b) The assignment must be the free act and deed of the assignor. It will not be accepted if the assignor lacked testamentary capacity or was subjected to fraud, duress, undue influence or coercion of any kind.

(c) Although, as already stated, the assignment may be partial in the sense that the designated beneficiary may assign only a portion of his insurance, it may not be limited or qualified in the sense that restrictions as to time or other factors may be placed on the assignment. For example, if the beneficiary is the father, he may not assign to the widow "so long as she remains unmarried."

(d) After the assignment is made and the initial payment thereunder to the assignee is effected, the assignment becomes irrevocable.

(e) In addition to the foregoing, reference is made to Administrator's Decision No. 738, February 15, 1947, which provides:

(1) That assignments of National Service Life Insurance death benefits may be made in cases in which the insurance matured prior to August 1, 1946, as well as in those in which it matured on or after that date.

(2) That the assignment is for the life of the assignee, not for the life of the assignor.

(3) That the number of installments certain under such an annuity referred to in the last proviso of section 13, as stated in paragraph 1 (e) above, is to be determined by the age of the assignor, not the age of the assignee.

(4) That when the designated beneficiary, either principal or contingent, executes or joins in an assignment, he relinquishes his right and title to that part of the insurance which he would otherwise have been entitled to as beneficiary, but he does not thereby relinquish his right and title to any benefits payable under the provisions of section 602 (h) (3), National Service Life Insurance Act of 1940, by reason of his relationship to the insured.

(f) The right to make an assignment is confined to a designated beneficiary, principal or contingent. Therefore, the preferred beneficiaries of gratuitous Na-

tional Service Life Insurance benefits or those beneficiaries who take contract National Service Life Insurance benefits by devolution or operation of law (Section 602 (h) (3)) may not assign their right and title in such insurance.

DETERMINATIONS AND APPEALS WITH RESPECT TO UNEMPLOYMENT

1. Section 36.518 *Determinations and appeals with respect to unemployment* (9 F. R. 11012) is amended as follows:

No change in (a)

Paragraph (b) is revoked and superseded by the following:

(b) Such determination shall be final unless within the time limit set by the agency's law and regulations for the filing of appeals from initial determinations an appeal is taken therefrom. Except as provided in §§ 36.501 to 36.522, inclusive, or where another referee or tribunal is designated by the Administrator, such appeal shall be heard and decided by the same referee or tribunal which would hear and decide the appeal if it had arisen under the law of the agency. The hearing shall be conducted in accordance with the agency's law and regulations, in the same manner as are appeals from the agency's unemployment compensation benefit determinations, except as otherwise prescribed by the Administrator.

No change in remainder of section.

The Commission having before it the request of the Television Broadcasters Association, Inc., for an extension to June 30, 1947 of the action of the Commission of December 26, 1946 waiving the requirements of § 3.661 (a) of the rules and regulations of the Federal Communications Commission until March 31, 1947; and

Whereas, it appears that because of construction and operating difficulties the deferment of the effect of § 3.661 (a) which requires television licensees to broadcast a minimum of 2 hours of broadcast service in any given broadcast day and not less than 28 hours broadcast service per week, should be continued until June 30, 1947;

It is hereby ordered, That § 3.661 (a) be amended so that the footnote at the end of § 3.661 (a) will read as follows:

¹ The requirements of § 3.661 (a) are waived until June 30, 1947.

PERMISSION FOR ORAL EXAMINATION IN CERTAIN CASES OF APPLICANTS FOR RESTRICTED RADIOTELEPHONE OPERATOR PERMIT

MARCH 31, 1947.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of March 1947;

The Commission having under consideration its procedure governing the determination of qualifications of applicants for radio operator licenses, and the procedure governing the issuance of such licenses; and

It appearing that the public interest, convenience, or necessity will be served by waiving temporarily certain procedural requirements for the purpose of expediting the issuance of certain radio operator licenses in appropriate cases; and

It is ordered, That until further order of the Commission, but in no event beyond May 15, 1947, the provisions of §§ 13.21, 13.22 and 13.23 are hereby waived to the extent that applicants for restricted radio-telephone operator permits, who are otherwise qualified, may be examined orally instead of in writing in such cases as the Secretary and the Law and Engineering Departments may find necessary for the purpose of expediting the issuance of restricted radio-telephone operator permits that are needed for the protection of life or property or in connection with employment.

The purpose of the proposed amendment is to detail the grounds upon which a tariff publication may be rejected, and to empower the Director of the Economic Bureau to reject any tariff, supplement, or revised page which is subject to rejection under the revision. It is believed that the proposed amendment will do much to expedite the handling of rejections.

Consideration will be given to written comments on the proposed revision which are received by the Secretary, Civil Aeronautics Board, Washington 25, D. C., not later than April 21, 1947.

UNITED STATES MARITIME COMMISSION

[146 CFR, Ch. III]

[Docket No. 657]

AGREEMENTS AND PRACTICES PERTAINING TO
BROKERAGE, AND RELATED MATTERS

ORDER TO SHOW CAUSE AND NOTICE OF
PROPOSED RULE MAKING

In Docket No. 645 the Commission found with respect to Agreement No. 7790 submitted by Pacific Westbound Conference that the provision prohibiting the payment of brokerage should be eliminated; and for that reason, among others, the Commission withheld approval of the agreement.

Pacific Westbound Conference and other conferences listed in Appendix A, annexed to this order, are functioning under agreements which contain provisions as to brokerage similar in effect to the provision disapproved in Docket No. 645; or under conference regulations which contain provisions forbidding the payment of brokerage.

Representations have been made to the Commission by various conferences indicating that such conferences and their members dispute the finding of the Com-

mission in Docket No. 645 with respect to the agreement for non-payment of brokerage. Other representations have been made to the Commission on behalf of freight forwarders and others, calling upon the Commission to issue rules requiring the payment of brokerage.

The Commission has determined that it should, in the public interest, institute public hearings for the purpose of inquiring into, and of taking appropriate action concerning the payment or non-payment of brokerage by carriers subject to the Commission's jurisdiction, and concerning conference agreements, regulations, arrangements and practices relative thereto.

In connection with the foregoing matters, the Commission desires to obtain the views of interested persons as to the formulation of appropriate policies.

Accordingly, pursuant to sections 15, 16, 17, 18, 21, 22 and 23 of the Shipping Act, 1916, and section 4 of the Administrative Procedure Act, upon the Commission's own motion,

It is ordered, That the Commission institute public hearings with respect to the payment and non-payment of brokerage by carriers subject to its jurisdiction, and that at such hearings, evidence be received as to whether conference agreements and regulations adopted thereunder, prohibiting the payment of brokerage, are contrary to law or unjustly discriminatory or unfair as between carriers, shippers, importers, exporters, or ports, or detrimental to the commerce of the United States; and

It is further ordered, That respondents show cause before the Commission why conference agreements (including regulations, understandings and other arrangements) to which respondents or any of them are parties, which prohibit the payment of brokerage, should not be disapproved; and

It is further ordered, That all persons (including individuals, corporations, associations, firms, partnerships and public bodies) desiring to be heard at the hearings to be conducted hereunder, whether or not such persons are named as respondents, may file with the Commission within twenty days from the date of publication of this order in the FEDERAL REGISTER written request to appear and be heard; and

It is further ordered, That the conferences and members thereof, named in Appendix A hereto annexed, be, and they hereby are, designated respondents in this proceeding; and

It is further ordered, That this order be published in the FEDERAL REGISTER and that a copy be served upon each respondent, and that respondents be allowed twenty days from the date of service in which to file answers, and that this proceeding be assigned for hearing at such times and places as the Commission may hereafter direct, and that such hearings be conducted in accordance with the rules of procedure of the Commission.

By order of the United States Maritime Commission.

[SEAL] R. L. McDONALD,
Assistant Secretary.

NATIONAL MEDIATION BOARD

[29 CFR, Part 12061]

HANDLING OF REPRESENTATION DISPUTES UNDER THE RAILWAY LABOR ACT

NOTICE OF PROPOSED RULE MAKING

APRIL 1, 1947.

1. Pursuant to section 4 (a) of the Administrative Procedure Act notice is hereby given of proposed rule making in the above entitled matter.

2. Certain questions have arisen in connection with the determination of employee representatives by the National Mediation Board under the provisions of section 2, Ninth, of the Railway Labor Act. The Board deems it advisable to cover such questions by substantive rules which will govern its representatives and labor organizations interested in such disputes. The following rules are therefore proposed to be issued pursuant to the authority given the National Mediation Board to establish the rules to govern representation elections among the employees of the rail and airline carriers subject to Titles I and II of the Railway Labor Act, as amended.

(a) *Run-off elections.* If in any craft or class no organization or individual re-

ceives a majority of the legal votes cast, a second, or run-off, election shall be held forthwith between the two organizations or individuals having received the highest number of votes cast in such craft or class in the first election.

(b) *Percentage of valid authorizations required to determine existence of a representation dispute.* (1) Where the employees involved in a representation dispute are represented by an individual or labor organization, either local or national in scope, and are covered by a valid existing contract between such representative and the carrier, a showing of proved authorizations from at least a majority of the craft or class must be made before the National Mediation Board will authorize an election or otherwise determine the representation desires of the employees under the provisions of section 2, Ninth, of the Railway Labor Act.

(2) Where the employees involved in a representation dispute are un-represented, a showing of proved authorizations from at least thirty-five (35) percent of the employees in the craft or class must be made before the National Mediation Board will authorize an election or otherwise determine the representation desires of the employees under the provisions of section 2, Ninth, of the Railway Labor Act.

(c) *Age of authorization cards.* Authorizations must be signed and dated in the employee's own handwriting. No authorizations will be accepted by the National Mediation Board in any employee representation dispute which bear a date prior to one year before the date of the application for the investigation of such dispute.

(d) *Repeat elections.* The National Mediation Board will not commence the investigation of a representation dispute for a period of two (2) years from the date of a certification covering the same craft or class of employees on the same carrier in which a representative was certified.

(e) *Necessary evidence of intervenor's interest in a representation dispute.* In any representation dispute under the provisions of section 2, Ninth, of the Railway Labor Act, an intervening individual or organization must produce proved authorizations from at least twenty-five (25) percent of the craft or class of employees involved to warrant placing the name of the intervenor on the ballot.

(f) *Eligibility of dismissed employees to vote.* Dismissed employees whose request for reinstatement account wrongful dismissal are pending before proper authorities, which includes the National Railroad Adjustment Board, are eligible to participate in elections among the craft or class of employees in which they are employed at time of dismissal. This does not include dismissed employees whose guilt has been determined, and who are seeking reinstatement on a leniency basis.

3. A public hearing on the proposed rules listed above will be held before the Members of the National Mediation Board in Auditorium C, United States Department of Labor Building, 14th and Constitution Avenue, N. W., Washington, D. C., commencing at 10:00 a. m., eastern

[Docket No. G-878]

INTERSTATE NATURAL GAS CO., INC.

NOTICE OF APPLICATION

APRIL 7, 1947.

Notice is hereby given that on March 14, 1947, Interstate Natural Gas Company, Inc., a Delaware corporation with its principal place of business in Monroe, Louisiana, filed an application for permission and approval, pursuant to section 7 (b) of the Natural Gas Act, to abandon the following-described facilities and service rendered by means of such facilities, to wit:

(1) An 8.49 mile section of the 22-inch loop pipe line that has its begin-

ning in Section 32, Township 12 North, Range 8 East, Franklin Parish, Louisiana, 53.5 miles south of DeSiard Compressor Station and ends in Section 8, Township 10 North, Range 8 East, Catahoula Parish, Louisiana, 61.99 miles south of DeSiard Compressor Station, and

(2) A 4.8 mile section of the 22-inch loop pipe line that has its beginning in Section 19, Township 10 North, Range 9 East, Catahoula Parish, Louisiana, 66.3 miles south of DeSiard Compressor Station and ends in Section 18, Township 9 North, Range 9 East, Catahoula Parish, Louisiana, 71.1 miles south of DeSiard Compressor Station.

Applicant states that its main transmission system extends from the Monroe Gas Field, Ouachita, Louisiana, to Baton Rouge, Louisiana; that within the past several years its source of gas supply has changed from the Monroe Field as the sole source, and at present it is obtaining large quantities of gas from along its pipe line between the Monroe Field and Baton Rouge; that formerly the entire gas supply for New Orleans was transported through its main line, but the gas fields in Southern Louisiana now constitute the source of gas for New Orleans and consequently there is no longer any necessity for maintaining all of the present loop lines; that by introducing gas from any field into the main line at points downstream from DeSiard Station will counter-balance any loss of capacity caused by the removal of the pipe as proposed; that gas available under peak conditions for the main transmission system in 1947, is 62,000 Mcf. from the Monroe Field, 30,000 Mcf. from the Vixen Field and 30,000 Mcf. from the Carthage Point Field, a total of 122,000 Mcf. of natural gas; that additional gas is anticipated from other fields developed adjacent to the main transmission system, such as the Holly Ridge Field in Tenas Parish, Louisiana, and if sufficient gas becomes available along the line, the original capacity thereof of 170,000 Mcf. per 24 hours can be maintained; that its ability to continue to render service to customers supplied from the main transmission line will not be impaired; and that the reasons for discontinuing service by means of the aforesaid loop lines rather than other lines are: the pipe is of lighter weight, more accessible for lifting and

removal from location, more valves are salvable, and the condition of the pipe in the original line at these points is such that any trouble necessitating a loop line is not probable.

Any interested state commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Rule 37 of the Commission's rules of practice and procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board or a joint or concurrent hearing together with the reasons for such request.

The application of Interstate Natural Gas Company, Inc. is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the *FEDERAL REGISTER*, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946) and shall set out clearly and concisely the facts from which the nature of the petitioner or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding.

[Docket No. G-882]

TRUNKLINE GAS SUPPLY CO.

NOTICE OF APPLICATION

APRIL 7, 1947.

Notice is hereby given that on March 20, 1947, Trunkline Gas Supply Company (Applicant) a Delaware corporation having offices at Wilmington, Delaware, and Washington, D. C., filed an application with the Federal Power Commission for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of a 30-inch O. D. steel welded natural gas transmission pipeline, approximately 855 miles in length, and appurtenant facilities, beginning at a point in Wharton County, Texas, and extending in a generally northerly direction through the States of Arkansas and Missouri, to a point in Keokuk County, Iowa.

The facilities as proposed and described by applicant, in addition to the main pipeline, include appurtenant facilities for gathering, dehydration, compression, transmission and delivery of natural gas through the proposed system, including among other facilities, 60 miles of 24-inch "feeder lines" and 12 compressor stations with an aggregate of 182,400 h. p.

The overall cost of the facilities for which a certificate is sought, including working capital, Applicant estimates, will approximate \$74,266,507, which Applicant proposes to finance through the issuance and sale to the public of bonds and preferred stock, supplemented with funds obtained through short-term loans and by the issuance of additional common stock.

Commencement of construction is planned by Applicant as soon as the necessary pipe and materials become available. Construction, according to Applicant, will require approximately 12 months. As of the date of its application Applicant states that no commitments had as yet been received from financial and equipment supply sources.

The sales capacity of the system proposed, Applicant estimates, on a daily basis will approximate in the first year 171,000 Mcf, during the second and third years 300,000 Mcf, increasing to 425,000 Mcf in the fourth and fifth years. A volumetric two part rate is proposed, with a commodity charge of 12¢ per Mcf and a demand charge of 3.6¢ per Mcf.

The service proposed to be rendered, as described by Applicant, is primarily "a wholesale service" to be offered to natural gas companies at such points along Applicant's system as may prove convenient to such companies, including among others, Natural Gas Pipeline Company of America, Northern Natural Gas Company, Michigan-Wisconsin Pipe Line Company, Panhandle Eastern Pipe Line Company, Cities Service Gas Company, Arkansas-Louisiana Gas Company, Arkansas-Western Gas Company, Arkansas-Oklahoma Gas Company and Mississippi River Fuel Corporation.

Applicant states it does not propose, as its primary objective, to sell gas from its facilities directly to industries or directly to gas distributing companies for resale. Industries and distributing companies in cities and towns conveniently located near its proposed main pipeline system, Applicant says, would be served if, as and when Applicant should have gas available for such service, subject to appropriate approval from the Commission.

Applicant proposes to secure its gas supply from Gulf coastal gas fields in Texas in the general area identified by Applicant as Texas Railroad Commission Districts 2, 3 and 4, where the proven gas reserves, Applicant asserts, are now estimated to total over 43 trillion cubic feet, where there are large quantities of flare gas being wasted for want of suitable markets. As of the date of filing its application, Applicant says it "has not finally contracted for any specific reserve or reserves for the supply of its line."

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

The application of Trunkline Gas Supply Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the *FEDERAL REGISTER*, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding, so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding.

[Docket No. G-833]

CONSOLIDATED GAS UTILITIES CORP.

NOTICE OF APPLICATION

APRIL 7, 1947.

Notice is hereby given that on March 31, 1947, Consolidated Gas Utilities Corporation (Applicant) a Delaware corporation, having its principal place of business at Oklahoma City, Oklahoma, and authorized to do business in the States of Texas, Oklahoma, and Kansas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to construct and operate the following described facilities:

(a) A field booster compressor station of 600 horsepower to be located in the Northeast Quarter of Section 100, Block 23, H. & G. N. R. R. Co. Survey, Wheeler County, Texas.

(b) Approximately 41 miles of 12-inch pipe line, beginning at or near Applicant's Enid Compressor Station in Garfield County, Oklahoma, and extending northeasterly to a point of connection with Applicant's existing 10-inch pipe line in Section 9, Township 27 North, Range 1 West, Kay County, Oklahoma.

Applicant states that the maximum delivery capacity of the proposed field booster station will be approximately 14,000 Mcf per day, and the maximum delivery capacity of the proposed 41-mile pipe line will be approximately 60,000 Mcf per day.

It is stated that the proposed field booster station is required because pressures of gas wells in the Wheeler County, Texas, area from which Applicant is obtaining natural gas have declined to such an extent that its present field booster station in the area is no longer adequate to provide sufficient quantities of gas for Applicant's existing markets at adequate pressures.

Applicant states that it is now taking deliveries of natural gas from a new producing area in Major County, Oklahoma, designated as "Southeast Meno Gas Field" which has estimated gas reserves of 70 billion cu. ft. to an abandonment pressure of 200 pounds p. s. i. g. Applicant estimates that deliveries to its pipe line system from this source of supply on the 1947-48 peak day will be from 15 to 20 million cu. ft.

Applicant states that the gas to be transported through the facilities described in subparagraph (b) above, will be obtained from the Panhandle Gas Field in Wheeler County, Texas, and Southeast Meno Gas Field in Major County, Oklahoma. It is stated that Applicant's present system from Enid, Oklahoma, to Blackwell, Oklahoma, cannot be operated at pressures required to transport the volumes of gas presently available from these two fields and that connection of the Southeast Meno Gas Field to Applicant's main pipe line, together with operation of the proposed field booster station, will provide natural

gas for delivery through the proposed 41-mile, 12-inch pipe line into the general area where curtailments have occurred on Applicant's system and thus enable Applicant to supplement its present declining sources of supply and assist it in meeting its present market requirements.

No new service is proposed to be rendered by Applicant through the facilities described.

The estimated over-all capital cost of constructing the facilities described in subparagraph (a) above is \$83,910, and that of constructing the facilities described in subparagraph (b) above is \$628,961, all to be financed from funds to be obtained incidental to the refunding of Applicant's present outstanding funded indebtedness. Applicant states that eleven institutional investors have entered into firm agreements to purchase the new securities.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such requests.

The application of Consolidated Gas Utilities Corporation is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition

to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contention of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding.

SKY BROADCASTING SERVICE (KSKY) AND
WESTERN OKLAHOMA BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of A. L. Chilton, Lenore H. Chilton and James Ralph Wood, d/b as Sky Broadcasting Service (KSKY) Dallas, Texas, Docket No. 8263, File No. BP-3966; Western Oklahoma Broadcasting Company, Clinton, Oklahoma, Docket No. 8264, File No. BP-5321; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of March 1947;

The Commission having under consideration the following matters:

(1) The application of Western Oklahoma Broadcasting Company for a construction permit for a new standard broadcast station to be operated at Clinton, Oklahoma, on 670 kc, with 250 w power, daytime only; (File No. BP-5321),

(2) The application of A. L. Chilton, Lenore H. Chilton and James Ralph Wood, d/b as Sky Broadcasting Service (KSKY), for a construction permit to increase the power of Station KSKY, operating daytime only on 660 kc at Dallas, Texas, from 1 kw to 50 kw (File No. BP-3966), and

(3) A petition filed by Sky Broadcasting Service (KSKY) on March 6, 1947, requesting that the said application of Western Oklahoma Broadcasting Company above be designated for a hearing and that the petitioner be allowed to participate therein to the extent of opposing a grant of the said application of Western Oklahoma B/C Co., and

It appearing, that the said application of Sky Broadcasting Service (KSKY) since it proposes an operation more than 750 miles from the dominant station on the frequency 660 kc., has been placed in the pending files pursuant to the Commission's public notice of June 21, 1946, to await the conclusion of the clear channel hearing (Docket No. 6741), but that the said application of Western Oklahoma Broadcasting Company proposes an operation less than 750 miles from the dominant station on the frequency 670 kc. and therefore could be considered on its merits and granted without awaiting the outcome of the said clear channel hearing were it not for objectionable interference which would result between the operation proposed therein and the proposed operation of KSKY,

It is ordered, Pursuant to section 309 (a) of the Communications Act of 1934, as amended, that the aforesaid applications of Western Oklahoma Broadcasting Company (File No. BP-5321) and of Sky Broadcasting Service (KSKY) (File No. BP-3966) be, and they are hereby, designated for hearing in a consolidated proceeding at a time and place to be designated by subsequent order of the Commission: *Provided, however*, That if, as a result of the consolidated hearing, it appears that, were it not for the issues pending in the clear channel hearing (Docket No. 6741) and the Commission's policy pertaining thereto as announced in the public notice of June 21, 1946, the public interest would best be served by a grant of the said application of Sky Broadcasting Service (KSKY) then the said KSKY application will be returned to the pending files until after the conclusion of the said clear channel hearing; and,

It is further ordered, That the said applications be heard upon the following issues:

1. To determine the legal, technical, financial and other qualifications of the applicants, and of the officers, directors and stockholders of the corporate applicant to construct and operate their respective stations as proposed.

2. To determine the areas and populations which may be expected to gain primary service from the proposed operations and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether such service would

meet the requirements of the populations and areas proposed to be served.

4. To determine whether the proposed operations would involve objectionable interference with any existing broadcast stations, and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the proposed operations would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the proposed installations and operations would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That, in view of the foregoing action, the aforesaid petition of Sky Broadcasting Service (KSKY) be, and it is hereby, dismissed.

Notice is hereby given, that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

By the Commission.

CENTRAL PUBLIC UTILITY CORP. ET AL.

NOTICE OF FILING AND NOTICE OF AND ORDER
FOR HEARING AND ORDER CONSOLIDATING
PROCEEDINGS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 4th day of April A. D., 1947.

In the matters of Central Public Utility Corporation, applicant, File No. 54-156; Central Public Utility Corporation, applicant, File No. 54-144; Consolidated Electric and Gas Company, applicant, File No. 54-40; Central Public Utility Corporation, Consolidated Electric and Gas Company, respondents, File No. 59-40; Christopher H. Coughlin, W. T. Coughlin, W. T. Crawford, and Rawleigh Warner, voting trustees under Voting Trust Agreement dated August 1, 1932, relating to common stock of Central Public Utility Corporation, respondents, File No. 59-49.

Notice is hereby given that Central Public Utility Corporation ("Central Public") a registered holding company, has filed an application with this Commission pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 (this being the second plan filed with the Commission by Central Public, pursuant to section 11 (e) of the act and will hereinafter be referred to as "Second Plan")

All interested persons are referred to said document which is on file in the offices of the Commission for a statement of the transactions therein proposed which are summarized as follows:

Central Public proposes to cause Consolidated Electric and Gas Company ("Consolidated") a registered holding company and a direct subsidiary of Central Public, to transfer the common stock of Atlanta Gas Light Company ("Atlanta") all of which is now owned by Consolidated, in exchange for the publicly held preferred stock of Consolidated in full satisfaction and discharge of the claims and rights of said publicly held preferred stock.

As at December 31, 1946, Consolidated's capitalization consisted of \$10,750,000 principal amount of notes payable to various banks bearing interest at 2 1/4 % per annum and maturing November 29, 1948; 183,719 shares of \$6 Cumulative preferred Stock of which 68,856 shares are owned by Central Public and 114,863 shares are owned by the public; 1,430,000 shares of Class "A" Non-Cumulative Stock, par value \$1 per share and liquidation preference \$25 per share (all owned by Central Public), and 1,000,000 shares of common stock, par value \$1 per share (all owned by Central Public) As at December 31, 1946, dividend arrears applicable to the preferred stock amounted to \$85.85 per share on the 114,107 shares issued in August 1932; \$84 per share on the twelve shares issued in February 1933; and \$7.50 per share on the 744 shares issued in 1945. As at the same date Consolidated owned and controlled directly and indirectly seventeen subsidiary companies, including Atlanta.

In connection with carrying out Second Plan, Central Public is to undertake to have Consolidated or Atlanta effectuate the following transactions:

(a) Increase Atlanta's authorized common stock from 250,000 shares to 1,000,000 shares and reclassify its presently outstanding common stock from

240,145 shares, par value \$25 per share, to 802,553 shares, par value \$10 per share;

(b) Increase Atlanta's common stock capital account from \$6,003,625 to \$8,025,530 by transferring thereto from Atlanta's capital surplus account \$207,092 and from its earned surplus account \$1,814,813;

(c) Modify the charter of Atlanta, among other things, to provide for cumulative voting and limited preemptive rights to the common stock, to establish certain limitations with respect to the payment of dividends on said common stock in the event the common equity is reduced to certain specified ratios, and to provide for the election of a new Board of Directors for Atlanta;

(d) The distribution to the public holders of the 114,863 shares of Consolidated's \$6 Cumulative Preferred stock, and in exchange for their holdings of said preferred stock of Consolidated, of the 802,553 shares of Atlanta's new common stock on the basis of 7 shares of said common stock of Atlanta for each share of preferred issued originally in August 1932 or February 1933 and 5 shares of new common stock of Atlanta for each share of \$6 Cumulative preferred stock issued originally in December 1945 (there being only 744 shares of such stock outstanding).

By the terms of Second Plan, Consolidated is to be caused to secure the release of Atlanta's common stock from the lien securing Consolidated's present bank loan (if Atlanta's stock is still subject to such lien) and deliver the certificate or certificates representing the 802,553 shares of such stock, assigned in blank, to an agent to be selected by Central Public, with the approval of the Commission, this agent to act both as distribution agent and as Atlanta's transfer agent. Upon the day following the day of delivery of Atlanta's common stock to said agent, distribution of said stock to the public holders of the preferred stock of Consolidated is to commence and will continue until terminated by the agent. The termination date is to be not earlier than twenty-three months after the date of the original delivery to the agent of the certificates representing Atlanta's common stock nor more than twenty-six months after such delivery. During the period of distribution, the distributing agent, among other things, will hold the shares of Atlanta's common stock not distributed for the account of the owners of \$6 Cumulative Preferred Stock of Consolidated other than Central Public; accept the surrender of such \$6 Cumulative preferred stock certificates in exchange for Atlanta's common stock; record in the name of each public owner at the time he shall surrender his certificate or certificates with respect to the \$6 Cumulative Preferred Stock of Consolidated the number of shares of Atlanta's common stock to which he is entitled and concurrently issue to him a certificate or certificates representing Atlanta's shares so recorded; and deliver the surrendered certificates of \$6 Cumulative Preferred Stock of Consolidated to or in accordance with the order of Consolidated or its successor.

Second Plan provides that "not earlier than two years, and not later than twenty-six months after delivery of Atlanta's common stock the distributing agent will sell in such manner and at such price as the agent, if it shall be a bank or trust company shall, in its sole discretion determine, otherwise at public auction or in such different manner as the Commission may permit, all of the then undistributed shares of such common stock." The fund realized from this sale together with any money received from Consolidated (under circumstances hereinafter described) or from Atlanta as dividends applicable to its common stock held by the agent is to become a trust fund for the benefit of the holders of unexchanged shares of preferred stock of Consolidated. Upon presentation of their certificates these holders may receive their pro rata share of the trust fund. The trustee of the fund is to be the distributing agent, if it shall be a bank or trust company, otherwise a bank or trust company to be selected by the agent.

Upon the delivery by Consolidated to the distributing agent of Atlanta's common stock, Consolidated will lose all of its rights and incidents of ownership and the public owners will become and be the beneficial owners of all of the shares of Atlanta's outstanding stock. The public owners of the \$6 Cumulative Preferred Stock of Consolidated will lose all of their rights and incidents of ownership of such preferred stock except that they will have the right to receive the shares of Atlanta's common stock and the monies and dividends, if any, to which they are entitled under the provisions of Second Plan. Consolidated's Certificate of Incorporation is to be amended to extinguish all of the shares of its preferred stock excepting only those shares that are owned by Central Public by reducing its authorized and outstanding preferred stock from 400,000 shares and 133,719 shares, respectively, to 68,856 shares.

Prior to delivery to the distributing agent of Atlanta's common stock, Atlanta is to declare and pay to Consolidated current dividends for the period from December 31, 1946 to the date of delivery in an aggregate amount of not less than \$450,000. Consolidated will retain for its own use from such dividends the sum of \$450,000. In the event that these aggregate current dividends exceed \$450,000, then upon delivery of Atlanta's common stock, Consolidated will pay to the distributing agent a sum equal to such excess. The agent will accept and hold such sum for the account of and for distribution to the public owners of Consolidated's \$6 Cumulative Preferred Stock.

Furthermore, prior to delivery of Atlanta's common stock, if Atlanta's net tax liability for Federal income and excess profits taxes for the years 1941 through 1945 shall have been finally determined and settled and Atlanta's net liability for such taxes shall not equal or exceed the sum of \$381,634.13 (the aggregate of the accruals now on Atlanta's books for such taxes), Atlanta will declare and pay to Consolidated and Consolidated will retain for its own use as a

special dividend 50% of the amount by which said accruals plus any tax refund exceed the tax liabilities as so determined and settled. In the event that such special dividend shall not be paid by reason of the fact that Atlanta's liability for Federal income and excess profits tax for the years 1941-1945 inclusive shall not have been finally determined and settled prior to the delivery of Atlanta's common stock, then prior to such delivery, Atlanta will pay to Consolidated \$381,634.13 plus an amount equal to all refunds theretofore repaid to Atlanta and it will agree to pay to Consolidated all refunds of such taxes together with interest thereon thereafter repaid to it and Consolidated will agree to pay all now unpaid Federal income and excess profits taxes which shall be payable by Atlanta for the years 1941-1945 inclusive with interest and penalties thereon (Consolidated reserving the right to require Atlanta to contest any tax claims). Furthermore, Consolidated will undertake to indemnify Atlanta for any now unpaid Federal income and excess profits taxes and interest and penalties thereon for said period and to repay to Atlanta upon the settlement of these tax obligations a sum equal to 50% of the total of the sum paid by Atlanta to Consolidated or 50% of the excess of such total over the aggregate amount of Atlanta's taxes as finally determined and paid, whichever shall be the smaller amount.

The effectuation of Second Plan is subject to the following conditions:

(a) The Commission shall have approved Second Plan and transactions embraced therein;

(b) The Commission upon request of applicant shall have instituted a proceeding in a court of competent jurisdiction pursuant to sections 11 (e) and 18 (f) of the act and such court shall have entered a decree or order to enforce and carry out the terms of Second Plan;

(c) The order or orders of the Commission shall recite that the relevant transactions of Second Plan are necessary or appropriate to the integration or simplification of the Holding Company System of which Central Public and Consolidated are parts and necessary or appropriate to effectuate the provisions of section 11 (b), all in accordance with the meaning and requirements of the Internal Revenue Code, as amended, including section 1893 (f) and Supplement R thereof; and

(d) Authorization satisfactory to counsel for Central Public and counsel for Consolidated shall have been given for the carrying out of any provision of Second Plan by any regulatory commission, the consent of which is in the opinion of such counsel legally necessary.

In connection with Second Plan, Central Public undertakes to cause Consolidated to pay all fees, expenses and other remuneration in such amounts as shall be approved by the Commission for services rendered, or expenses incurred or to be incurred in connection with the proceedings before the Commission, having File Nos. 54-40, 59-40 (in so far as such proceedings involve Consolidated) and 54-144 and in connection with Second Plan and the transactions incident thereto.

There are now pending with this Commission consolidated proceedings under sections 11 (b) (1) 11 (b) (2) and 11 (e) of the act, involving the Voting Trustees for the common stock of Central Public, Central Public and Consolidated. These consolidated proceedings bear File Nos. 54-144, 54-40, 59-40, 54-53 and 59-49. It appears to the Commission that the proceedings with respect to Second Plan designated as File No. 54-156 involve questions of law and fact common to the consolidated proceedings now pending with the Commission and that a substantial saving of time and expense will result if the evidence and testimony adduced in said prior consolidated proceedings, are considered in connection with the issues raised by said Second Plan.

It is hereby ordered, That the proceeding under section 11 (e) of the act with respect to Second Plan designated as File No. 54-156 and the pending consolidated proceedings under sections 11 (b) (1) 11 (b) (2) and 11 (e) of the act and embraced in File Nos. 54-144, 54-40, 59-40, 54-53 and 59-49 be, and the same hereby are, consolidated and the records in said prior consolidated proceedings be, and hereby are, incorporated into the record of the proceeding with respect to Second Plan, subject, however, to the Commission's right, upon its own motion or the motion of any interested party, to strike such portion of the record in respect of said consolidated proceeding designated as File Nos. 54-144, 54-40, 59-40, 54-53 and 59-49 as may be deemed irrelevant to the issues raised by said Second Plan.

It is further ordered, That a public hearing be held under the applicable provisions of the act and rules and regulations promulgated thereunder at 10 a. m., e. s. t., on the 21st day of April 1947 at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as may be designated on that day by the Hearing Room Clerk in Room 318 before the Trial Examiner heretofore designated to preside in the prior consolidated proceedings. All persons desiring to be heard or otherwise to participate in the proceedings who are not now parties to the pending proceedings should notify the Commission in the manner provided by Rule XVII of its rules of practice, on or before April 17, 1947.

Notice is hereby given of said consolidated hearing to the above-named applicants and respondents and to all interested persons, said notice to be given to said applicants, respondents, all persons who have participated in the proceedings involving the first Plan of Central Public (File No. 54-144) and to the Public Service Commission of Georgia by registered mail and to all other persons by publication of this notice and order in the FEDERAL REGISTER and by a general release of this Commission, copies of which are to be furnished to the press and mailed to all persons on the Commission's mailing list to receive copies of releases under the Public Utility Holding Company Act of 1935.

It is further ordered, That Central Public and Consolidated give additional notice of said hearing by publication in appropriate form of a notice at least

twice at intervals of not less than five days in a newspaper of general circulation in each of the cities of New York, New York, Chicago, Illinois and San Francisco, California, the last publication to occur not later than five days prior to April 21, 1947, and that Consolidated notify its preferred stockholders, to the extent that their addresses are known or are available to Consolidated, by mailing a copy of this notice and order to said security holders not later than ten days prior to April 21, 1947.

It is further ordered, That without limiting the scope of the issues presented in the consolidated proceeding particular attention shall be directed at the hearing, in addition to issues 1 through 10 inclusive, set forth in this Commission's order of April 18, 1946, and published in Holding Company Act Release No. 6562, to the following matters and questions:

1. Whether Second Plan as presently filed, or as it may hereafter be modified, is necessary to effectuate the provisions of section 11 (b) of the act and fair and equitable to all persons affected thereby.

2. Whether the transfer of the new common stock of Atlanta to the public holders of Consolidated's \$6 Cumulative Preferred Stock and the allocation in the manner proposed among these preferred stockholders is in all respects fair and equitable to said security holders and if not what apportionment and allocation thereof would be fair and equitable;

3. Generally whether the transactions proposed in Second Plan are in all respects in the public interest and in the interests of investors and consumers and consistent with all applicable requirements of the act and of the rules thereunder, including the proposals as to the following matters:

(a) The reclassification of the common stock of Atlanta in the manner proposed;

(b) The establishment of a distribution agent for the common stock of Atlanta in the manner proposed;

(c) The establishment of a trust fund with respect to the shares of Atlanta common stock not exchanged in the manner proposed; and

(d) The payments of regular and special dividends and the undertaking with respect to Federal income and excess profits taxes in the manner and for the purposes proposed.

4. Whether, and in what manner, Second Plan should be modified to ensure adequate protection of the public interest and the interest of investors and consumers and compliance with all applicable provisions of the act and rules thereunder.

It is further ordered, That jurisdiction be, and it is hereby reserved to separate either for hearing in whole or in part or for determination in whole or in part any issues or questions which may arise in these proceedings or to take such other action as may appear conducive to an orderly, prompt and economic disposition of the matters involved.

By the Commission.

PUBLIC SERVICE CORP. OF NEW JERSEY
ET AL.

NOTICE OF FILING OF AMENDMENT TO PLAN
AND ORDER RECONVENING HEARINGS IN
CONSOLIDATED PROCEEDINGS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 7th day of April 1947.

In the matter of Public Service Corporation of New Jersey, and its subsidiary companies, and The United Corporation, File No. 59-86; Public Service Corporation of New Jersey, File No. 54-148.

The Commission, on June 12, 1946, entered an order instituting proceedings (File No. 59-86) under sections 11 (b) (1) and 11 (b) (2) of the Public Utility Holding Company Act of 1935 with respect to Public Service Corporation of New Jersey (Public Service), a registered holding company, and all of its subsidiaries, and in said order named The United Corporation (United) also a registered holding company, as party to the proceedings. The proceedings instituted by said order were directed to a determination of what action and steps, if any, are necessary to be taken by United and Public Service and its subsidiaries or by any of them to effectuate compliance by Public Service or any of its subsidiaries with the provisions of sections 11 (b) (1) and 11 (b) (2).

Public Service, on August 15, 1946, filed an application, pursuant to section 11 (e) of the act (File No. 54-148), for approval of a plan stated to effectuate compliance with section 11 (b) of the act. Said plan was previously described in the notice of and order for hearing and consolidation of the proceedings on the plan with those instituted by the Commission under section 11 (b) (Holding Company Act Release No. 6883). The plan provided for its implementation by further amendments regarding chiefly the dividend and conversion rate and number of shares of Preference Common Stock of Public Service's principal utility subsidiary which were proposed to be exchanged for the several classes of Preferred Stock of Public Service upon the dissolution of Public Service. Hearings were held from time to time in connection with said consolidated proceedings and evidence presented. Said hearings were adjourned subject to the call of the trial examiner to afford Public Service opportunity to prepare and file a definitive amendment to said plan.

Notice is hereby given that Public Service has filed an amendment to the above-mentioned and previously described plan. All interested persons are referred to said amended plan, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Upon completion of the steps hereinafter set forth, Public Service proposes to liquidate and dissolve by transferring its assets to Public Service Electric and

Gas Company (Electric and Gas) its principal utility subsidiary, and causing that company to assume the liabilities of Public Service.

(1) Electric and Gas will retire all of its \$5 Cumulative Preferred Stock outstanding in the hands of the public by redemption at \$110 per share plus accrued dividends.

(2) Electric and Gas will issue \$18,195,610 principal amount of unsecured non-callable 50-year 6% Debenture Bonds which will be exchanged, on a dollar for dollar basis, for all the publicly held 6% Perpetual Interest Bearing Certificates of Public Service which are outstanding in like principal amount.

(3) Electric and Gas will reclassify the common stock, all of which is owned by Public Service, into preference common stock and regular common stock. The dividend preference common stock will be limited to cumulative dividends of \$1.40 per annum; it will be entitled to a preference over the regular common stock in respect of such dividends and each share of such dividend preference common stock will be convertible (at the option of the holder) during the first three years following the effective date of the plan into one share of regular common stock; during the next succeeding three years into seven-eighths of a share of regular common stock; during the next succeeding years into three-fourths of a share of common stock; and during the following three years into two-thirds of a share of common stock; thereafter the conversion privilege will terminate. Holders of the dividend preference common stock shall have no preemptive rights but in all other respects will have the same rights and privileges as the regular common stock: *Provided, however*, That to effect a voluntary liquidation of the corporation the consent of at least a majority of the dividend preference common stockholders must be obtained.

(4) Public Service will exchange shares of the \$1.40 Dividend Preference Common Stock of Electric & Gas for each share of the several classes of preferred stock in the hands of the public on the following bases:

	\$1.40 dividend preference common stock
8% cumulative preferred stock	4.5 shares
7% cumulative preferred stock	3.9 shares
6% cumulative preferred stock	3.4 shares
5% cumulative preferred stock	3.1 shares

For each share of the common stock of Public Service in the hands of the public, there will be exchanged one share of the regular common stock of Electric & Gas and one-tenth of a share of the common stock of South Jersey Gas Company (See paragraph 6 below).

(5) The charter of Public Service Coordinated Transport (Transport) will be amended to reclassify its outstanding 487,479 shares of preferred stock, all of which is owned by Public Service, into a like number of shares of common stock which will be acquired by Electric & Gas upon the dissolution of Public Service. All existing shares of common stock of Transport will be cancelled and the

stated value thereof transferred to capital surplus.

(6) Public Service will cause its subsidiary, The Atlantic City Gas Company (with which company Peoples Gas Company has been merged and to which Public Service has made a capital contribution of \$5,000,000, all subsequent to the date of the filing of the original plan), to change its name to The South Jersey Gas Company.

(7) The stock and indebtedness of County Gas Company held by Public Service will be sold or otherwise disposed of by it.

(8) Electric and Gas will restate its Gas Utility Plant and classify \$44,744,603 in Utility Plant Acquisition Adjustments—Gas (Account 100.5) and on the effective date of the plan \$30,000,000 of such amount will be charged to Capital Surplus and the balance will be amortized at the rate of at least \$500,000 a year through charges to Income Deductions, Earned Surplus or Capital Surplus, as the company may elect.

On the effective date of the Plan, Transport will restate its fixed capital account to eliminate \$33,296,464 of intangibles by charging \$33,216,720 to Capital Surplus (being the amount of such surplus created by the surrender of the common stock) and the balance to Earned Surplus.

(9) Persons entitled to receive Debenture Bonds of Electric & Gas in a principal amount less than \$100 or to receive less than a full share of Electric & Gas \$1.40 Dividend Preference Common Stock or South Jersey Gas Company common stock will receive transferable scrip in lieu of such fractional interests. Scrip for fractional interests in Debenture Bonds will be redeemed at the principal amount or exchanged for such bonds if presented in units of \$100 principal amount or any multiple thereof. Scrip for fractional interests in the foregoing stocks will be exchanged for such stocks when presented in units aggregating one or more full shares.

(10) All exchanges of Perpetual Interest Bearing Certificates, preferred and common stocks of Public Service and exchanges or redemption of Electric & Gas transferable scrip must be made within five years from the effective date of the plan at the expiration of such time such unexchanged or unredeemed securities will be void and of no value.

The consummation of the plan is subject to all necessary approvals by the Board of Public Utility Commissioners of the State of New Jersey, this Commission and the United States Court having jurisdiction with respect thereto.

It appearing to the Commission that the hearings in connection with the consolidated proceedings herein should be reconvened for the purpose of adducing further evidence and affording further opportunity to all interested persons to be heard:

It is ordered, That the hearings in the consolidated proceedings be held on the 27th day of May 1947, at 10:00 a. m., e. d. s. t., in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in

Room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That any persons not heretofore having appeared in these proceedings and now desiring to be heard or proposing to intervene herein shall file with the Secretary of this Commission, on or before May 23, 1947, his request or application therefor as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That Willis E. Monty, or any other officer or officers of the Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a Trial Examiner under the Commission's rules of practice.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of the amended plan and that, upon the basis thereof, the following matters and questions are presented for consideration by the Commission without prejudice to its specifying additional matters and questions upon further examination:

(1) What steps are necessary to be taken by United, Public Service and the subsidiaries of Public Service to ensure that the corporate structure, or the continued existence of any company in the holding company system of Public Service does not unduly or unnecessarily complicate the structure of, or unfairly and inequitably distribute the voting power among the security holders, of the holding company system of Public Service or of United.

(2) What action is necessary to be taken by United, Public Service and/or its subsidiaries to limit the operations of the holding company system of Public Service to a single integrated public utility system and such additional utility systems, or other businesses, as are retainable by Public Service under the standards of section 11 (b) (1) of the act.

(3) Whether the proposed Amended Plan, as submitted or as hereafter further amended, is necessary to effectuate the provisions of section 11 (b) of the act.

(4) Whether the proposed Amended Plan, as submitted or as hereafter further amended, is fair and equitable to the persons affected thereby.

(5) Whether the securities proposed to be issued meet the applicable statutory standards, and, in particular, without limiting the generality of such issue, whether the 50-year 6% Debentures and \$1.40 Dividend Preference Common Stock proposed to be issued by Electric and Gas (if they will have been authorized by the Board of Public Utility Commissioners of the State of New Jersey) are solely for the purpose of financing the business of Electric and Gas, or if not, whether they meet with applicable standards of section 7.

(6) Whether the sale or other disposition of the County Gas Company can be permitted prior to recapitalizing said company so as to fairly and equitably

distribute its voting power among the several classes of its securities.

(7) Whether the proposed acquisition by Electric and Gas of the securities of Transport is in conformity with the standards of section 10, and not detrimental to the carrying out of the provisions of section 11.

(8) Whether the accounts of the several subsidiaries of Public Service as they are proposed to be stated will be in accord with accepted accounting principles and will meet the applicable statutory standards.

(9) Generally, whether the transactions proposed in the Amended Plan comply with all the requirements of the applicable provisions of the act and the rules promulgated thereunder.

(10) What fees and expenses should be paid in connection with the consummation of the Amended Plan and all transactions incidental thereto.

(11) Whether, if the Amended Plan, as proposed or as hereafter further amended, is approved by the Commission, it is appropriate in the public interest or in the interests of investors or consumers that any terms or conditions be imposed in connection with such approval, and, if so, what such terms and conditions should be.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That jurisdiction be reserved to separate, either for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues, questions or matters herein set forth or which may arise in these proceedings or to be consolidated with these proceedings other filings or matters pertaining to the subject matter of these proceedings, and to take such other action as may appear conducive to an orderly, prompt, and economical disposition of the matters involved; and

It is further ordered, That notice of this hearing be given by registered mail to Public Service and its subsidiaries, United, the Board of Public Utility Commissioners of the State of New Jersey, and the Federal Power Commission and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That Public Service shall give further notice of this hearing to all its security holders (insofar as the identity of such security holders is known or available to Public Service) by mailing to each of said persons a copy of this notice and order for hearing, to his last known address, at least 30 days prior to the date of this hearing.
